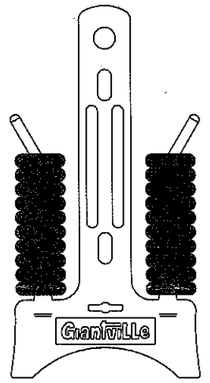
GIANT 4-IN-A-ROW
GAME PLAY INSTRUCTIONS

HOW TO WIN:

Be the first player to get four of your colored donuts in a row!
You can line them up horizontally, vertically or diagonally.

GETTING STARTED:



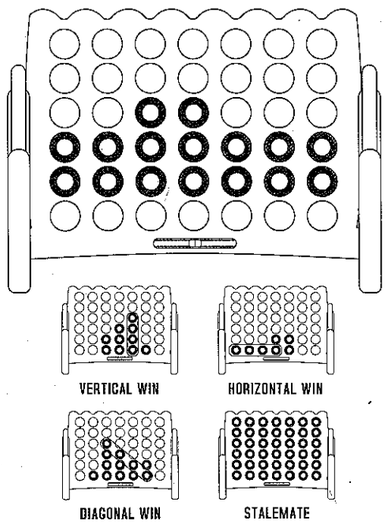
1. Assemble board as shown on the Assembly Instructions page and position board between you and your opponent.

2. Each player must chose a different color. Players must gather all donuts of their color.

3. **PICK WHO GOES FIRST!**
This can be decided by a coin flip, rochambeau, or just agreeing to go first.

REMEMBER: IF YOU START THE FIRST GAME, YOUR OPPONENT GETS TO START THE SECOND GAME!

HOW TO PLAY:



1. Starting with who goes first, each player will take turns placing ONE donut at a time into ANY of the slots at the top of the board.

2. Players continue taking turns until one player gets FOUR of their colored donuts in a row! They can be lined up horizontally, vertically, or diagonally.

In the event of a stalemate, and no one was able to make 4 in a row, an automatic re-match is necessary. THERE CAN ONLY BE ONE CHAMPION!

3. Play a new game by pulling the sliding lever at the base of the board to release the donuts. Replace the lever and PLAY AGAIN!
